You're thinking on your feet  
As you're marching to a beat  
That has sold you down the street  
Straight into the red

You see numbers in your head  
As you crawl into your bed  
And look just where it's led  
Straight into the red

Wasn't it sweet how everybody shared  
The same delusion  
Falling asleep perchance to dream away  
All their confusion  
And never wake up  
And never wake up  
And never wake up

It wasn't in the script  
Who'd be paying for this trip  
As the needle starts to clip  
Straight into the red

Wasn't it sweet how everybody shared  
The same delusion  
Falling asleep perchance to dream away  
All their confusion  
And never wake up  
And never wake up  
And never wake up

And never wake up  
And never wake up  
Never wake up

Wasn't it sweet how everybody shared  
The same delusion  
Falling asleep perchance to dream away  
All their confusion  
And never wake up
