What's that sound?  
Like an aeroplane coming down  
Like every banshee in every hill  
Uniting in one diabolical yell

They said we're eight miles down  
And we're eight miles down  
We don't know much but we know what we like  
A particular chord when you strike it just right

This is the brain  
It's the center of all our pain  
Where every banshee in every hill  
Is uniting in one diabolical yell.

They said we're eight miles down  
And we're eight miles down  
We don't know much but we know what we like  
A particular chord when you strike it just right

We've been here all along  
We sing our lonely song  
First in on every sigh  
Lions and tigers and bears oh my

Stop making a stand  
(turn it up turn it up)  
Take matters in hand  
(turn it up turn it up)  
We've sung the first hit already, flip it over again  
(turn it up turn it up)

We're eight miles down  
We're eight miles down  
We don't know much but me we know what we like  
A particular chord when you strike it just right

First in on every sigh  
Lions and tigers and bears oh my

Stop making a stand  
(turn it up turn it up)

Take matters in hand  
(turn it up turn it up)  
We've sung the first hit already, flip it over again  
(turn it up turn it up turn it up turn in up turn it up!)

Stop making a stand  
(turn it up turn it up)  
Take matters in hand  
(turn it up turn it up)  
Here we are at the end already, flip it over again  
(turn it up turn it up turn it up turn it up turn it....)
