"Dizzy"

I pump poison
Into my body
To forget
That I am me
It feels good
Wonderful
I forget I have feelings at all
You're dizzy
I floated up
Fifteen miles high
Stuck my head through
All the holes in our sky
I looked out across the universe
And thought of you
You're dizzy
And I am dizzy too
I became lunatic
With rolling eyes
Squirring on the ground
Frozen in ice
Called to my mother
Said "mother, please
Feed me before the sky
Falls in on me"
You're dizzy
