Never shed no tears for Maggie  
Never shed no tears for Maggie  
Never shed no tears for Maggie  
Don't shed no tears for her

Don't forget the factories closed  
And communities on fire  
The workers stripped of dignity  
Iron lady was a liar

Never shed no tears for Maggie  
Never shed no tears for Maggie  
Never shed no tears for Maggie  
Don't shed no tears for her

From 84' - to 85

With her spies - in mi5  
She destroyed - miners lives  
And just thats why - we'll never cry

Never shed no tears for Maggie  
Never shed no tears for Maggie  
Never shed no tears for Maggie  
Don't shed no tears for her

The enemy - was not within  
Our mines or towns - but her smug grin  
She destroyed - more than lives  
And just thats why - we'll never cry
