Your fucking hungry - what can you do  
Stomach's rumbling - for a sub or two  
All those choices - of where to eat  
Seem them all - can't see your feet

Your what you eat - that's what they say  
You take the piss - what do you weigh?  
Papa john's - dominoes  
Burger king - and burrito's

It's more more more  
For me me me  
It's more more more  
For me me me

Buffet food - and burgers too  
Look what that does to you

Your extra large - you wonder why  
You take two seat - until you die

Your fucking hungry - what can you do  
Stomach's rumbling - for a sub or two  
All those choices - of where to eat  
Seem them all - but can't see your feet

It's more more more  
For me me me  
It's more more more  
For me me me

It's more more more  
For me me me  
It's more more more  
For me me me
