The trees are spinning oxygen  
They're the rockets we should fear  
If we go and let 'em off then we will disappear  
Yeah we will disappear  
Surely we will disappear

The road is hot and dusty  
The desert needs a beer  
But if we go and blow it up then we will disappear  
We will disappear  
Surely we will disappear

If we go and blow it up then we will disappear  
We will disappear  
Surely we will disappear  
We will disappear  
Surely we will disappear

We will disappear  
Surely we will disappear  
We will disappear  
Surely we will disappear  
We will disappear
