Fathers ! From your mighty world  
Fathers ! We saw your tears of gold  
Messengers in the night ! We saw your drawing in the  
sky  
Wolves ! We heard your song beyond the montains  
We eternally danced on the ruins, in a land of wisdom  
In the name of forests  
In the name of stars  
In the name of all the stars  
In the name of storms

We praised the magical knowledge  
We were on the way of the blood and fire  
With a sea of corpses in the valley  
In memory of our tribe we were alive  
Proud sons of ancient nation  
Proud sons of sacred song in the wind  
Proud sons behind a mirror of ice who told  
"Fathers of the Icy Age"  
.. In remembrance ...
