How long have I been in this storm
So overwhelmed by the oceans shapeless form
Water's getting harder to tread
With these waves crashing over my head
If I could just see you
Everything would be alright
If I had to see you
This darkness would turn to light
And I would walk on water
And you will catch me if I fall
And I will get lost into your eyes
And everything will be alright
Everything will be alright
Know you didn't bring me out here to drown
So why am I ten feet under and upside down
Barely surviving has become my purpose

Cause I'm so used to living underneath the surface
If I could just see you
Everything would be alright
If I had to see you
This darkness would turn to light
And I would walk on water
And you will catch me if I fall
And I will get lost into your eyes
And everything will be alright
And I will walk on water
You will catch me if I fall
And I will get lost into your eyes
And everything will be alright
Now everthing is alright
Everything is alright
