I use to think that we were meant to be
But I realize what a nightmare you were to me
Now I wait silently for the day
When all this trouble seems to come your way

Chorus:

Waving good bye for the last time
Not gonna let you play with my mind
Don't hate u but it's all the same
Right here, right now I'm ending this game

Your touch made me feel so good inside

From you there was nothing to hide
But her hiked up boots with her little mini
With no stopping her vanity,
Attention like that is all you need

CHORUS

Bridge:

You've been taking me for granted
And now I can't stand it (no more)
No tears will come from these eyes
I'm through; I'm done with your lies

CHORUS
