Blown away, It's easier to be your clone  
You've done it again, Nobody's laughing  
Laughing but you, Set your changing your spots again  
I close my eyes to see, What you've become  
A broke man, He fits the part  
It's a big surprise you shouldn't tell  
Shot in the head you dead, Did nothing wrong this was  
Between you and me, so what it gonna be

You yourself you know that it can't be done  
You must stand there just look  
Pretty underneath a bleeding sun  
Clock starts ticking now  
How long till the sun comes down

Light, Let me go  
For me save me  
Let me go  
See she's calling light let me go

Is this uncertainty, Has this been all for show  
Is the color really me  
Slip slide go under trapped in the rabbit hole  
She's gone, A burn bit off your tongue  
Hooray someone else to blame  
I try I've tried but I can't remember  
This world this life this perfect picture  
When did it start to become this ride  
See your changing your spots again  
I close my eyes to see  
What you've become
