sun down, sun down  
Right before your eyes  
sun down, sun down  
Right before your eyes

Though the day destroys the night  
night divides the day  
try to run  
try to hide  
Break on through to the otherside

And so we change our pleasures here  
dug our treasures there  
We can still recall  
The time I've cried  
Break on through to the otherside

Everybody loves my baby  
Everybody loves my baby

If i will cut three in your arm  
I will move your eyes  
Arms that change us  
Eyes that lies  
Break on through to the otherside  
Break unto to the otherside  
uh ho

every day,  
The day of our hour  
tell me wheres the power  
Yes that, killer smile

oh yes over, over, over
