Well as this cold world  
turns round and round  
so much tragedy  
have i found  
If i could take it away  
i'd do that now  
Cuz only in my dreams  
can i smile  
so if i go to sleep  
don't wake me up  
cuz only in my dreams  
can i fly away! (x4)  
fly away

So god bless my soul  
the pain I feel won't nobody know  
cuz this world is evil  
and everytime i wake up i wanna go home  
so what am i to do  
but sing a song for you  
cuz i feel you also  
that's why i'll never let you go  
they say i lost my mind  
but i did that so long ago  
so when i close my eyes  
leave me alone

so if i go to sleep  
don't wake me up  
cuz only in my dreams  
can i fly away (x4)  
fly away

uh, somebody pray for me  
i believe i can fly, ya, crazy me  
but at night these angels be singing to me  
like lalalalalalalala  
so as i lay awake at night  
i drift away into the sky  
and that's where i reside  
oh yeah, oh yeah  
so pray that i'll be just fine

i see you when it's time  
i'll see you when it's time

Well as this cold world  
turns round and round  
so much tragedy  
have i found  
If i could take it away  
i'd do that now  
Cuz only in my dreams  
can i smile
