[B.O.B]

The world is a battlefield, the fight is a fireplace
We train to sustain, so how much pain can you tolerate
The goal is to dominate competition annihilate
We hunger for victory, it's a dish that we gotta take
It's a good life we chasing, my shoes on I laced them
We don't get... cause each step is greatness
A champion we made it, it's my road, I've paved it
If you feel like I feel, you must feel amazing

[Chorus: O.A.R.]

You wanna be one, with no one your side
How much longer till we make it now?
We're all champions, we're all champions
There's no giving up, the hunger inside
One day we gonn make it, just...
You're a champion, you gotta know
We're all champions, whoa
Yeah, yeah, yeah, yeah
We're all champions, we're all champions
We're all champions
Yeah, yeah, yeah, yeah
We're all champions, we're all champions

[B.O.B]

It's all that I've ever know, it's all that I've ever seen
I came here with nothing but I'ma leave with a legacy
A brand new impediment, believe is the recipe
And ain't no second-guessing when thinking
successfully
Taking no for an answer isn't part of the deal
You see the blood sweat and tears, we leave it all on
the field
We make our dreams reality, you can tell that it's real
Cause I'm a champion, I live the life I said I would live.

[Chorus]

You wanna be one, with no one your side
How much longer till we make it now?
We're all champions, we're all champions
There's no giving up, the hunger inside
One day we gonn make it, just...

You're a champion, you gotta know
We're all champions, whoa
Yeah, yeah, yeah, yeah
We're all champions, we're all champions
We're all champions
Yeah, yeah, yeah, yeah
We're all champions, we're all champions.

[O.A.R.]
Whoa, who's gonna tell me that it's not my time?
Who's gonna tell me that the world ain't mine?
All of us rise up when the time align
Lookin' for nothing cause it's all inside.
Running away the of midnight run
Fire, fire, I'm a champion!
Higher, higher, it's my chance!

We're all champions, we're all champions
(It don't get much better, yeah)
We're all champions, whoa
We're all champions, we're all champions
We're all champions
We're all champions, we're all champions

[O.A.R.]
... there's no more life to break this
Hope is all we got... the stress, the doubt time...
Taste the... be strong,...
It's everything we could imagine, yeah
We're all champions
We're all champions, we're all champions.
