[Intro: B.o.B]

Everything yeah [x8]

[Verse 1: B.o.B]

You know what they say

Money isn't everything

Married to the game but ain't no wedding ring

So insane nose bleed flow call that cocaine

So high you would swear my office was an airplane

And if you let me fuck bitch I'm fucking up your hair
game

You gon need some hair spray

Catch me out here getting it in in every way

Wait, let it marinade

Please do not interrogate

It's a movie everywhere I go no need to narrate

Fans by my barricade

Groupies by the staircase

I done had to much success is something that I'll never
say

Everything is everything when you're chasing
everything

How can they box a nigga in I'm running every lane

[Hook: B.o.B]

Family over everything I put that shit on everything

Getting it with my niggas yeah we heading home with
everything

Uh, I put that shit on everything

She ask me what I want, I told her everything

Everything yeah [x4]

Family over everything I put that shit on everything

Getting it with my niggas yeah we heading home with
everything

[Verse 2: B.o.B]

Every time my squad go traveling

All my niggas fill up the first class cabin

This ain't even funny really I ain't even laughing

What you make in ten years what I pay in taxes

Middle finger up way high to the masses

Stay out my business don't touch my jacket
You know what I'm bout you don't even got to to ask it
Fuck her for a long time give her that giraffe dick
(aaahhh)
And if you feeling ratchet bitch I'm Juicy J
Now drop it lower than my high school GPA
Hit the weed man ask him what's the easy a
Spend so much on blunts I'm getting hit up by my CPA
I'mma hit him right back
Soon as a nigga finish this stack
And somebody get my lawyer on the phone tell him
add
another couple mil to the contract
East side of Atlanta on my back
Where they ride with the hammers and the straps
It don't matter what it is you can name anything you
can put my fam over that
Cause I ride for my fans
Every flight every time that I land
You can tell I'mma make big moves
Bout' the size of my plans
Rolex on my wrist but it ain't much time on my hands
That lambo shut em up call it silence of the lambs

[Hook]

[Verse 3: B.o.B]

Yeah I say don't stop get it, don't stop get it
Business over bullshit that's just the way we kick it
Yeah I say don't stop get it get it, don't stop get it
Business over bullshit now that's the family business
Everything yeah [x4]
I say don't stop get it get it, don't stop get it
Business over bullshit yeah that's the family business
