[Samples The Beatles 'Elenor Rigby':]

"I look at all the lonely people"

"I look at all the lonely people"

"I look at all the lonely people"

I see 'em, I see 'em, I see 'em, there they go

"I look at all the lonely people"

I see 'em, I see 'em, I can see 'em, there they go

"I look at all the lonely people"

I see 'em, I see 'em, I see 'em, there they go

"I look at all the lonely people"

I see 'em, I see 'em, I see 'em, there they go

[Verse 1:]

Cindy Lavinsky

Went to her school where the kids that she did meet

Did not treat her friendly

She in elementary

So when she went home, it was wrong evidently

So lonely and empty

Well, lookin' for love in a club got her drunk

Met a thug named Bud, got her pregnant with a son

Here he come

In a sub-division there's a couple engaged in a fuss

One of them grabs a gun {gun cocks}

In the street, all alone, there's a kid

Tryin' to wipe away the tears after what his momma did

There it is

[Samples The Beatles 'Elenor Rigby':]

Where do they all come from? "

[Verse 2:]

Penny Lavinsky
Adopted at three, a foster home's where he's livin'
His pockets are empty
So when he turns 16
He just ran away and then he moved to the city
And had a daughter named Lizzy

Well, in a mansion, in a room, on a bed
There's a girl so depressed
From the drugs and the stress
All the diamonds on her dress still can not relieve
stress
That she faces from the world
Why these n*ggas offer it?
Evidence she's obsessed, but what she feels she can't
express
All she want is happiness
But all she know is big success
Nothin' less

"All the lonely people
Where do they all come from? "

[Chorus:]

"I look at all the lonely people"
"I look at all the lonely people"
"I look at all the lonely people"
I see 'em, I see 'em, I see 'em, there they go
"I look at all the lonely people"
I see 'em, I see 'em, I can see 'em, there they go
"I look at all the lonely people"
I see 'em, I see 'em, I see 'em, there they go
"I look at all the lonely people"
I see 'em, I see 'em, I see 'em, there they go

[Bridge:]

I know that you've been havin' a lonely day
All you gotta do, is find a way
Maybe in your dreams you can fly away
Away, away, away
I know that you've been havin' a lonely day
All you gotta do, is find a way
Maybe in your dreams you can fly away
Away, away, away

[Chorus:]

"I look at all the lonely people"
"I look at all the lonely people"
"I look at all the lonely people"
I see 'em, I see 'em, I see 'em, there they go
"I look at all the lonely people"
I see 'em, I see 'em, I can see 'em, there they go
"I look at all the lonely people"
I see 'em, I see 'em, I see 'em, there they go
"I look at all the lonely people"
I see 'em, I see 'em, I see 'em, there they go

"All the lonely people
Where do they all come from? "
