You are so professional  
Working 9 to 5  
Try to make a revenue  
Standing five for five  
Looking straight and credible  
But the guys will be lying really they are scared of you  
Cause girl i am telling you give it to me  
And we can do it right now  
And we can do it right now  
Like we are all alone  
And now you wait to do the things we are meant to do  
What we are meant to do  
We are ashamed so girl give it to me right now  
Just like a pro you know i am watching whenever you  
are on clock  
I hope you will never take a break i hope you won't stop  
Imagination had me on the bottom you on top  
Every single time you break it down you get them  
Every time you dress you bless them that is the deal  
I guess i have to resurrect them think of all your killing  
Cuter than a high heels and you shut them .  
You are so professional  
Working 9 to 5  
Try to make a revenue  
Standing five for five  
Looking straight and credible  
But the guys will be lying really they are scared of you  
Cause girl i am telling you give it to me  
And we can do it right now  
And we can do it right now  
Like we are all alone  
And now you wait to do the things we are meant to do  
What we are meant to do  
We are ashamed so girl give it to me right now  
Just like a pro  
You are doing it  
Doing it you know just what to do with that thing  
You are doing it  
Doing it you know just what to do with that thing  
I like how you move it with that thing  
Ok if i had a guess i can tell by the way you type

By the way you dress i can tell by the way  
You meet me across their desk  
If you ever get a guy like me you will be better if you  
ever get  
Light on now bring your waist to the edge of the bed  
I heard your accident that you are scratching . My name  
That is it you know what i like  
A business woman by day . By night  
You are so professional  
Working 9 to 5  
Try to make a revenue  
Standing five for five  
Looking straight and credible  
But the guys will be lying really they are scared of you  
Cause girl i am telling you give it to me  
And we can do it right now  
And we can do it right now  
Like we are all alone  
And now you wait to do the things we are meant to do  
What we are meant to do  
We are ashamed so girl give it to me right now  
Just like a pro  
I like the way you move it move it  
That thing  
I like the way you move it move it  
That thing  
And we can do it right now  
And we can do it right now  
Like we are all alone  
And now you wait to do the things we are meant to do  
What we are meant to do  
We are ashamed so girl give it to me right now  
Just like a pro
