[Chorus: B.O.B.]

I used to dream (I used to dream) oh whoa
About the money and the cars and girls (and the girls)
But now I sing (now I sing) oh whoa
Because I'm sitting on top of the world (the whole
world)
And now I sing sing sing sing cause I'm sitting on top of
the world
And now I sing sing sing sing sitting on top of the world

[Verse 1: T.I.]

Man I remember before I say that wait let me issue this
statement
No way should reflection be mistaking for glorification
Now I remember so vivid me and my n*ggas was living
Sub-standard condition still handling business
Still laughing and tripping still having the b*tches
I'm rapping now reminiscing and god damn it we did it
From trapping standing and pitching with rich we stand
in the kitchen
Splitting it eight ways flip it in 8 days
Thought that wildin unruly it was just the way to behave
Kept the weight and the yay for most the paper we
made in all dimes
I ain't lying the pleasure was all mine
Have big work to move but we served the small time
I always outshined the n*ggas with small minds
Who would of thought we would be arguably the
greatest of all time
Around here we developed such a sound down here
But duplicate it off the steel it can only be found here
Only listen to G's that other shit I don't hear
Shit they so far in the rear how would I even care
I'm too busy being a player staring at n*ggas careers
But talk about it for years and now we finally here

[Chorus:]

I used to dream (I used to dream) oh whoa
About the money and the cars and girls (and the girls)
But now I sing (now I sing) oh whoa
Because I'm sitting on top of the world (the whole

world)

And now I sing sing sing sing cause I'm sitting on top of
the world

And now I sing sing sing sing sitting on top of the world

[Verse 2: Ludacris]

They say what goes up must come down but I ain't
reached

my cruising altitude

Take a look at what I did but can you imagine what I'm
about to do

The places I'm bout to go and the money I'm bout to
see

Gave bill gates some binoculars and said look out for
me

Exceeded expectations even at def jam

Cause I married the streets and Atlanta has been my
best man

My momma quit her job and now she works with six
figures

Cause I'm a self-made nappy-headed rich n*gga

Private planes help me travel in peace

To four cities in one day and four countries in one week

Cause I work for myself and no one else cause I'm too
smart too

Put one of my partners right through culinary art school

Now he my personal chef so that bread he get it

Put them all in houses cleaned up all of my friends
credit

And now they witness all the glitz and the glamor

Catch us eating at straits Atlanta with women with table
manners

Order in Singapore and lobster

Celebrating coming from nothing to winning Grammy's
and rappers winning Oscars

And they say rappers shouldn't act nahh suckers

We see Samuel L.Jackson like what's up mother f*cker

[Chorus:]

I used to dream (I used to dream) oh whoa

About the money and the cars and girls (and the girls)

But now I sing (now I sing) oh whoa

Because I'm sitting on top of the world (the whole
world)

And now I sing sing sing sing cause I'm sitting on top of
the world

And now I sing sing sing sing sitting on top of the world

[Verse 3: T.I.]

I know them haters don't stop plotting and wish you
would fall

Cause I'm standing on top looking down at it all
I see you down there to y'all this ain't like I got it all
Homie I ain't get enough I'm still trying to triple up
That's why we got is street cred and akoo building up
Say I'm doing too much shit I say I ain't did enough
Remember saying damn if I could just get to a million
plus
And now I'm like shit what the f*ck is a million bucks
Triple that on my bond thanks to bigs and run
But never mind what I've been through just look at what
I become
All the shit I've avoided what I done for my sons
And daughters and momma just call her
I sold dope and dropped out of school seems it's all
they can see
They don't notice none of my family did that since me
I broke that cycle now my family live a life of
Mandatory minimalists but not when the judge sentence
them
Cousins in college where you think they get tuition from
Just for standing around wishing huh
And while you standing around looking dumb
I make it happen taking action over time got damn
good at it

[Chorus:]

I used to dream (I used to dream) oh whoa
About the money and the cars and girls (and the girls)
But now I sing (now I sing) oh whoa
Because I'm sitting on top of the world (the whole
world)
And now I sing sing sing sing cause I'm sitting on top of
the world
And now I sing sing sing sing sitting on top of the world
