[Hook]

How much must I repeat?
We only play for keeps
No time-outs, no free throws
No refs, no penalties
No handouts, no pit stops
No cheat codes, no sleep
But the drinks are on us
If you with it then pull up a seat

[Verse]

When you're roaming through the jungle talk is
nothing, talk is cheap
Time is money, money is power
Power corrupts eventually, damn
So what are the options?
What are the choices left for me?
What other rule is left to break?
I guess my fate is a quest for me
Man got a dog and ain't got no leash
Man got a crib, it ain't got no lease
Man got a flow that got no brain
But i still get brain, no hands no teeth
Nowadays, all of the killers on the beat
But where I was raised all of the killas was down the
street
Better do your research
Feeling like i fell out of the sky and landed feet first
My squad go hard, my squad go concrete, watch my
ream work
Hell yea, you can tell that the boy finna eat cause i took
my seat first
Three course meal, full entree, refills and I want my
dessert
So why not make a toast? Tomorrow could always be
worse
Now keep them bottles coming by the kiloliter
And get that Ana off your chest, try keep a clean shirt
I'm so Grand Hustle, you ain't even in my league sir
What's up with these nerds?
They be out here, gettin' their salads tossed, gettin'
their leave turned
That game just ain't what it used to be, the quality is

blurred
But a dying breed survives and a dynasty emerged
So put it in the air if you entirely concur
She call me hippie cause i live without any concern
Up on this green earth, I'm on them green herbs
Yeah yeah yeah, I stay in them trees like the Keeblers
And they say that i look higher in person
As a kid I played in the yard, but now I'm astro turfin'
I lived the actual version of the fantasies they utter
Made up stories of threesomes, they must just be
seeing double
Run for cover, here comes trouble
My heart is going cold so i gotta sleep with warmer
covers
Polar bear pimpin', solar flare spittin'
Somebody tell 'em that this is professional stuntin',
don't attempt it
Society is twisted, they tryna take us under
So when you see them folks, don't forget to warm a
brother
I made it out alive but still the battle is a struggle
Veni, vidi, vici, I came, I saw, i conquered
They mad cause i murdered the game
And their name wasn't in the will
You see, most of these haters are mad rappers who
just still waiting on a deal
And they jealous of my success cause my shoes cost
more than a bill
But i'll never sit down at another table unless I'm
invited to the meal
To some it's like conquering mountains, to me it's like
stepping on hills
Remember the images in your mirror can be bigger
than they appear
And the truth can be hard to swallow, depending the
size of the pill
And by the looks it's about the time that you had your
prescription filled
My life, full length feature presentation
There are no intermissions, no time for commercial
breaking
A fighter in his prime, a legend in the making
There's no debating when you let your numbers make
the statement
