"I Hope You Die"

Visit "[I Hope You Die](#)" on MotoLyrics.com

i woke up this mornin' you were gone
i found a note that said so long!
you this love would last all our lives,
i hope your face breaks out in hives.

i hope you die, a painfull death,
i hope you choke on your next breath.
you screwed me up, you done me wrong.
i hope you die before to long.

i hope you have a heartattack
i hope your breast, get really slack.
you were my girl and now you not,
i hope you die, i hope rot

cuz' i dont want to be your friend
i only want your life to end,
your back in town, someone elses gal
i hope you drown in a love canal.

i hope you die a painfull death,
i hope you choke on your next breath.
you screwed me up, you done me wrong,
i hope you die before to long.

i hope you die before the end of this song.
i hope you die, really, really, hope you die.
die, die, die.
fucking die.
