Forgetful heart, lost your power of recall  
Every little detail, you don't remember at all  
The times we knew  
Who would remember better than you?

Forgetful heart, we laughed and had a good time, you  
and I  
It's been so long, now you're content to let the days go  
by  
When you were there  
You were the answer to my prayer

Forgetful heart, we loved with all the love that life can  
give  
What can I say without you, it's so hard to live  
Can't take much more  
Why can't we love like we did before?

Forgetful heart, like a walking shadow in my brain  
All night long I lay awake and listen to the sound of  
pain  
The door has closed forever more  
If indeed there ever was a door
