When I'm walking, I can hear you talking
When I'm singing, You are dancing with me
You give me reason to breathe again
In fact Lord, You make it possible

Bridge

And you are like a flower blooming in the spring
And you are like the colors of an autumn leaf
And you are like the sea in all it's majesty
And that is why I love to be with You

Chorus

I love to be with You x 4

You whisper your love in the morning
And you cradle my head in the evening
You give me reason to dance in sun
After I have been out in the cold

Bridge

Chorus

Repeat till fade
