You got the gold
I got the lead
What the fuck's going on
Inside your head

You got the juice
You left me the dregs
What the fuck's going on
Inside your head

Must it always
Come to this
Someone out there
Must be taking the piss
Does it always have to
Turn to shit
Someone out there's
Seriously taking the piss

You got the view
I got the ledge
What the fuck's going on
Inside your head
You got the palace
You left me the shed
What the fuck's going on
Inside your head

You got a life
You left me for dead
What the fuck's going on
Inside your head
So why put a noose
Around your neck
What the fuck's going on
Inside your head
