When it's Over it's Over

Words and music by: Steven Rhodes

So many times it happens, we do not speak our minds

And what we do not say, catches up to us in time

When it comes to an end, the only person we blame is ourselves

Then we find ourself lonely, in our own little piece of hell

Chorus:

And you told me, when it's over it's over

When it's over it's over always?

You tell me that you love me, but actions speak louder than words

You say you'll never go away, but things like that go unheard

Everyone must go sometime, for reasons of their own or for due time

And even though we don't think so, neither of us has committed a crime

Chorus x 2
