Ha-ha now I've done it again
I've been mean towards myself
I'm so good at that, am I not?

tralala little cloudpuff.... tralala little cloudpuff
Come here and get a kiss

They can complain if they want to
I've stopped caring about such things
I'm glad I exist
It widens up my horizon

tralala little cloudpuff.... tralala little cloudpuff
Come here and get a kiss

Everybody buy me knows how it's gonna go
heeeeeeeeeeeeeeeeeelp
They pull on doors and doorknobs
Print out each one that I see
I'm off
I'm getting out in a classic manner

tralala little cloudpuff.... tralala little cloudpuff
Come here and get a kiss

They can complain if they want to..... etc / Chorus

Everybody but me... etc / chorus
