Storm warning, feels like a heavy rain
Winds on the coast tonight
We may get tossed tonight

Storm warning, he made it pretty plain
He's fallin' for another, found a new lover
And he won't be back again

Can't stop a river, when it's burst it's banks
I've seen the look in his eyes
He's in love and hypnotized

Time of mourning
There's already been a flood of my tears
Such a sense of loss tonight
Not to do but ride it out

Storm warning, storm warning

Can't stop a river when it's burst it's banks
I wonder how long it's gonna take
To get over this heartbreak

Storm warning, feels like a heavy rain
Winds on the coast tonight
We may get tossed tonight

Storm warning, storm warning
Storm warning, storm warning
