I can't find no love  
No sympathy  
What kind of love  
They've got for me  
I'm on my way  
To happiness  
Where I can find  
Some peace and rest  
When I'm in my trouble here  
Only me feels the pain  
Not one good word of advice  
From any of my so called friends  
I can't find no love  
No sympathy  
What kind of love  
They've got for me  
I'm on my way  
To happiness  
Where I can find  
Some peace and rest  
Might as well, might as well

I get out, I get out of hell  
Hell would never be made for me  
So I'm gonna search, search 'till I'm free  
I can't find no love  
No sympathy  
What kind of love  
They've got for me  
I'm on my way  
To happiness  
Where I can find  
Some peace and rest
