### **"Can't Blame The Youth"**

Visit "[Can't Blame The Youth](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You can't blame the youths  
You can't fool the youths  
You can't blame the youths, not at all  
You can't fool the youth  
You teach the youths about Christopher Columbus  
And you said he was a very great man  
You teach the youths about Marco Polo  
And you said he was a very great man  
You teach the youths about the pirate Hawkins  
And you said he was a very great man  
You teach the youths about the pirate Morgan  
And you said he was a very great man  
So you can't blame the youths of today  
You can't fool the youth  
You can't blame these youths, not at all  
You can't fool the youths  
Teach the youths Christopher Columbus  
You said he was a very great man  
Teach the youths about Marco Polo  
And you said he was a very great man  
Teach the youths about the pirate Hawkins  
And you said he was a very great man  
You teach the youths about the pirate Morgan  
And you said he was a very great man  
So you can't blame the youths  
No, you can't fool the youths  
You can't blame these youths  
No, you can't fool the youths  
You're teaching youths to learn in school  
And that the cow jumped over moon  
Teaching youths to learn in the school  
And that the dish ran away with spoon  
So you can't blame the youths  
No, you can't fool the youths  
You can't blame the youths of today  
You can't fool the youths  
Said he was a very great man  
Said he was a very great man  
You teach the youths about Christopher Columbus  
And you said he was a very great man  
You teach the youths about Marco Polo

And you said he was a very great man  
You teach the youths about the pirate Hawkins  
And you said he was a very great man  
And teach the youths about the pirate Morgan  
And then you said he was a very great man  
So you can't blame the youths  
No, you can't fool the youths  
You can't blame these youths of today  
You can't fool the youths  
Teach the youths a Christopher Columbus  
And you said he was a very great man  
Teach the youths a Marco Polo  
Said he was a very great man  
So you just can't blame the youths, no  
You just can't blame the youths  
I said we live and what we learn  
What we live and what we teach  
You cannot blame the youth
