Oh, we are friends and lovers forever
Oh, yes, we're friends and lovers forever

I had a heart full of love, I had to get to anywhere
Then you came along way and lovin' right you did to it
Oh, you love me even though I make you ask for it
And even when I need you, well, I can't make you ask
for it

Because we are friends and lovers forever
Oh, yes, we're friends and lovers forever
Yeah, yeah, yeah

We become so familiar with the asking of each other
Oh, we even grow with the asking and the giving of
each other
Oh, they say love is someone you can't fill yourself with
So when I'm hung up with you all I want
I want to be [Incomprehensible]

Baby, baby, take it, take it
Say that you want more, more
Baby, baby, take it, take it
That's what love is for, yeah

Because we are friends and lovers forever
Oh, yes we're friends and lovers forever
Oh, friends and lovers forever
Oh, yes we're friends and lovers forever
Oh, yes we're friends
