Oh Lord, oh Lord, oh Lord, yeah!

Well, it's not easy,
It's not easy
Speak the truth, come on, speak. Eh, now!
It ever cause it what it will:
He who hide the wrong he did
Surely did the wrong thing things.

And in the studio of -
Studio of time and experience
Here we experience the good and bad;
What we have, and what we had -
This session (session),
Not just another version (version).
Oh Lord, give me a session (session),
Not another version (version)!
They're so much stumbling blocks right in-a our way:
Monday, Tuesday, Wednesday, Thursday, Friday;
There's so much wanting, so much gain, so much have
done.

Live up the wiggle-ix-up, in the mix-up, yes!
Too much so fellow-ix up!
Too much of this mix up - mix up!

I was born in the country, right on top of a hill
I still remain, I know I still, I will-a,
But through your lack of respect and through your false
pride
Someone gotta take Jah - Jah - Jah children for a ride!
Shut up! Open the gate, and let saints through.

Please make it a session (session);
Not another version (version);

Ooh, please make it a session (session);
Not another version (version)!

Hey, you been talkin' all your mouth full of lies,
Genading and toppling and, Lord, they criticize.
So through the eyes of fool the deaf is wise,

And through the eyes of the wise the fool size.

Saying is too much mix up - mix up!

Saying is too much mix up - mix up!

I wanna carry the wheel once and for all;
I wanna carry my wheel, I don't care who fall!
I gotta carry my wheel once and for all;
Carry my wheels, I don't care who fall - fall:
(Too much mix-up - mix-up!)

[Guitar solo]

Hey! Mr. Music, why don't you wanna play?
Don't you know today is a bright holiday? Yeah!
(holiday)
Some people waiting for the message that you bring,
They listening to every word that you have sing.

Singing: (too much mix-up - mix-up -
(Too much wiggle mix up!)
Would you groove along now
(Too much mix up - mix up), yeah!
Yes, would you groove along now
(Too much wiggle mix-up!)
They just can't stop you know
(Too much mix-up - mix-up)! [fadeout]
