Bob Marley]

Satisfy our souls Jah Jah

Satisfy our souls

Satisfy our souls Jah Jah

Satisfy our souls

Jah is cool water

To our thirsty soul

Jah-Jah will keep us warm

When the times are cold

We the generation

Who goes through tribulation

But never the less I say

Rasta children can never go astray

Power top-a power, more power

Power top-a power, more power

Power top-a power, more power

Power top-a power, more power

Power top-a power, more power, now

Power top-a power, ya'll, a more power, now

Satisfy our souls Jah Jah

Satisfy our souls

I say, wonders never cease

Satisfy our souls Jah Jah

Satisfy our souls

Satisfy our souls Jah Jah

Satisfy our souls

It's a power top-a power, more power

Power top-a power, more power

Power top-a power, [more] more power now

Power top-a power [huh], more power

A power top-a power, more power ya'll

Power top-a power [good God], more power

A power top-a power, [dig it ya'll], more power

Power top-a power, p-po-power, more.
