Turn down the lights
Turn on the music
We've waited so long
And tonight, we're alone
You know by now
Just how I feel about you

Everything's right
And we won't abuse it
We've taken our time
And we know it's not wrong
Baby, right now
I'm ready to love when you want to

[CHORUS]
When you feel love (feel love)
Real love (real love)
A feeling so strong
We can't wait any longer
When you feel love (feel love)
Real love (real love)
You know that it's right
When I'm holding you tight
When you feel love (feel love)
And it's real love (real love)
Don't be afraid, it's so easy

This is the night
To love for the first time
The music plays softly
The moment is right
So lay next to me
I'm ready to love when you want to

[Repeat CHORUS 2x]

Ooh, yeah
