[Parody of "Kryptonite" by 3 Doors Down]

I took a walk around the block to ease my troubled  
mind  
It seems I fell in love and well I guess she's quite a find  
There's just one problem and I don't mean to be rude  
But I think my woman is a dude  
My baby's gender is ambiguous to me  
And I've seen the Springer show  
J just way too much to be at ease  
Is she man or woman, a rooster or a hen?  
Is she a Barbie or is she a Ken?  
I may be crazy but I think my girlfriend is a man  
Say what's your name again?  
Samantha or did you say it's Sam?  
I can't tell if my baby is a he or a hermaphrodite  
You call me weird, you call me freak  
Cause my girl's genetically unique  
But I take advantage of the things that we hold  
common to

She watches sports and works on cars  
She even programs VCRs  
Don't tick her off cause she can bench 300 pounds  
I may be crazy but I think my girlfriend is a man  
I'd give a million bucks to find out if she sits or she  
stands  
I can't tell if my baby is a he or a hermaphrodite  
I may be crazy but I think my girlfriend is a man  
Please tell me does she have testosterone or estrogen  
glands  
I can't tell if my baby is a he or a hermaphrodite  
Yeah  
I may be crazy but I think my girlfriend is a man  
Should I risk finding out or run away as fast as I can?  
I can't tell if my baby is a he or a hermaphrodite  
She's a dude  
She's a dude  
She's a dude
