you say i treat you like a book on a shelf. i dont take you
out that often
cuz i know that i completed you and that is why you are
here.
that is the reason you stay here. how awful you must
feel.
you said you would be my dream. i could have you
every night and if,
by morning, i had forgotten you, well, no big deal, it
would be all right
cuz your the reoccurring kind. you never really leave
my mind. are you
the love of my lifetime? cuz there have been times i
have had my
doubts. we were just kids when i first kissed you in the
attic of my
parents house and i wish we were there now it took so
long to figure
out what this book has been about. now i write
when im away
letters youll never read you said to go explore those
other women the
geography of their bodies but there is just one map
youll need.
you are a boomerang youll see you will return to me.
you will. you? will. you? will. you? will. you? will. you? will.
you? will.
you? will. you? will. cuz if you dont then this book is all
lies if you dont
then my plans would be ruined if you dont ill start
drinking like the
way i drank b4 and i just wont have a future anymore
