This goes out to all the scarecrows all over the world
and my mom.

It used to be ideal

hanging round in fields

making all the crows turn chicken.

it used to be my goal

but now its getting cold

i'd rather make a proper living.

all the birds here know my face

they even know my name.

i'm giving up the scarecrow life

i'll find another game.

what can i be(what can i be)

what can i do (what can i do)

maybe a sailor or a superhero dude.

maybe i'll sail

maybe i'll fly

all i know is in this great big world

theres endless oppurtunities to try.

i know there are lots of possibilities but

at times it doesnt seem like it when your standing in a
field

on your own.

let me tell you about it.

it used to be my role

tied up to a pole

saving all the peas and carrots

but out in wind and rain

everydays the same

scaring off the hares and rabbits

and though i love this country life

and scaring crows is fun.

i'd love to take a holiday

and lay out in the sun.

what can i be (what can i be)

what can i do (what can i do)

maybe a dj

or the man up in the moon

just what to be

i cant decide

all i know is in this great big world

theres endless oppurtunities to try.

la la la la la la la la la la la la la la la la la

la la la la la la la la

all i know is in this great big world

theres endless possibilities to try.

you know maybe i should be happy where i am

not everybody can be a good scarecrow

most people are not even scary enough

and some people dont live near any crows

you know the more i think about it

i've got a really great life!

i've got great friends and a great job

and i'm gonna concentrate on being the best
scarecrow i can be

the best on the world!!

so now i know

so now i see

it's so easy all i have to be is me

maybe i'll sail

maybe i'll fly

all i know is in this great big world

theres endless possibilities to try.

i dont think its so bad when you have a simple job

where you get spend time outdoors

i think i feel sorry for nuclear physisists

they have to spend their whole day inside

looking at nuclears

i think a simple jobs a good thing for a simple guy like
me

i could try and be the man who folds the milk cartons
for a while

or i could watch paint dry

or maybe i could just be a scarecrow

Spud the scarecrow thats me!

with a bit of singing of course...
