I guess my heart just settled back to earth  
I rode a dream so wild and free for all that dream was  
worth  
True love is both a blessing and a curse  
I guess my heart just settled back to earth

I remember what you said that night so long ago  
My dream for you had ended and you let me know  
So I bounced from sky to sky, tryin' to keep the dream  
alive  
But everything I did just made it worse  
I guess my heart just settled back to earth

The songs our love created, I still sing  
And every night we'd make the rafters ring  
And tonight I'll sing for everything I'm worth  
For all the hearts that settle back to earth

The songs our love created, I still sing  
And every night we'd make the rafters ring  
And tonight I'll sing for everything I'm worth  
For all the hearts that settle back to earth
