"Until Now"

I remember well the solitude
Before there was a me and you
My friendships ended up
Misunderstood

Sometimes I would wake up scared
The sound of silence in the air
And morning never came
Around too soon

Nobody heard the song
When I was singing
Nobody felt the words
That I was saying
Until now

Until now
I went on wondering
Until now
Where my life would lead

And I reached out
For someone to believe
But heard my song
Until now

Broken hearts and love affairs
I don't remember who or where
You've given my life and love
A second chance

If I ever stand on a concert stage
With all the fortune and the fame
I'd only see your face
Out in the crowd

Cause nobody heard the song
When I was singing
And nobody felt the words
Nobody felt the words
Nobody heard my song

Until now
I went on wondering
Until now
Where my life would lead

And I reached out for
Someone to believe
But no one heard my song
Until now

Nobody heard my song
Nobody felt the words
Nobody heard my song
Until now
