You people can talk about me
And say what you wanna make
But I'm not worried

I got a whole lotta money
And a fine place to stay
I got three or four cars
And I ride around every day

I ain't doing too bad
I ain't doing too bad at all
Well, I ain't doing too bad
I ain't doing too bad at all

I got a book full of girls
That I can call on the phone
They all dig me cause
My conversation is so strong

I ain't doing too bad
No, I ain't doing too bad at all
Well, I ain't doing too bad, baby
I ain't doing too bad at all

Now lookie here
Well, I don't like work
And work don't like me
And we stay away from each other
That's the way it ought to be

I ain't doing too bad
No, I ain't doing too bad at all
Well, I ain't doing too bad, woman
Lord, I ain't doing too bad at all
Let me hear you say

It's all right, baby
Yeah, it's all right, baby
