Gotta whole lotta honey, all I need is a bee
Yes, gotta whole lotta honey, all I need is a bee
To look in her direction, come live in this colony

Don't do no packin', I'll buy everything you need
Yeah, do no packin', I'll buy everything you need
Just bring your love and that's enough for me

Got a whole lotta honey, no stinging will be done
Yes, got a whole lotta honey, no stinging will be done
I wanna make you my queen bee, you'll be the only one

Don't do no packin', I'll buy everything you need
Yes don't do no packin', I'll buy everything you need
Just bring your love and that's enough for me

Got plenty honey waiting, no stinging will be done
Well I got plenty a honey waiting, no stinging will be
done
I wanna make you my queen bee, you'll be the only one

Buzz, buzz, buzz, buzz away with me
Buzz, buzz, buzz, buzz away with me
I've got a fine comb, just need a honey bee!
