Monday's so good
Tuesday's so cruel
One day you're so happy now
The next day you're in tears

So you take it where you find it
Or you leave it like it is
That's the way it's always been
That's the way love is

Wednesday's all right
But Thursday's all wrong
One day you're all with it, baby
The next day, it's all gone

So you'll take it where you find it
Or you can leave it like it is
That's the way it's always been
That's the way love is

Friday, you'll beg her
Saturday, she'll plead
One day she'll say she loves you
The next day she might leave

So you'll take it where you find it
Or you can leave it like it is
That's the way it's always been
That's the way love is

It so seems so fair sometime
But that's the way love is
It makes you wanna cry
But that's the way love is

I know you don't know
What I'm talking about, baby
Because I don't believe
You've ever been in love
