Well listen to me baby, while I tell you a thing or two  
Yes, listen to me baby, while I tell you a thing or two  
Well the way things is happening, baby, baby just won't  
do

Well, you're the bad woman, don't mean no man no  
good  
Yes, you're the bad, bad, bad woman, don't mean no  
man no good  
So I'm packin' up my suitcase and endure like a wise  
man should

Well I'm leavin' you baby, you endure the best you can  
Yes, bye baby, babe, do the best you can  
Well I'll find another woman, baby find another man
