Well I'm standing at the wishing well, gazin' up at a  
fallin' star  
Well I'm standing at the wishin' well, gazing up at a  
fallin' star  
Well I wished I was an angel, so I can fly on wherever  
you are  
Well I can just see my pretty little self, floatin'  
around up there all day long  
Well I can just see my pretty little self, floatin'  
around up there all day long  
Well I can hear your sweet voice calling, fly on by  
me, fly on a-home  
Well baby  
I know my flight will get a little rugged, but I'll  
make it in on one wing and a prayer  
Well I know my flight will get a little rugged, but  
I'll make it in on one wing and a prayer  
Well I can make it through any kind of weather, as  
long as I know you'll be waiting there  
Well
