Baby It's Christmas time (2)  
All is silent here tonight  
It's cold outside but the fire's bright  
And my thoughts they turn to you.  
And I wonder how you sleep  
Cause I know my heart you keep  
and someday you'll realize

So baby just stop stop pulling my heart strings  
Won't you come back and make my heart sing?  
You've been away far too long  
Are you coming home?  
Remember how we kissed that time  
the mistletoe and too much wine  
at Christmas time  
Baby It's Christmas time

And I wonder where you are  
If I wish upon a star  
Will it bring you home to me?  
You can catch the midnight flight  
You'll be here by morning light  
Back in my arms again.

Chorus
