I have the saddest feeling
Deep inside
Don't think that I will hear
From you tonight

Now the moon lights up
I know the stars will shine
But I can't escape
The way I feel inside

Chorus
Every shade of blue I see
When you're away from me
Thinking about you Oh Oh
Thinking about you
Every shade of blue I cry
'Til the colours all run dry
When I'm without you Oh Oh
When I'm without you

Alone in the darkness
I can dream of you
But always the daylight
Comes around too soon

And the night goes on
Feels like it never ends
I keep holding on
'Til you come back again

Chorus
Every shade of blue I see
When you're away from me
Thinking about you Oh Oh
Thinking about you
Every shade of blue I cry
'Til the colours all run dry
When I'm without you Oh Oh

When I'm without you
When I'm without you

When I'm without you
When I'm without you

Now the moon lights up
I know the stars will shine
But I can't escape
The way I feel inside

Chorus

Every shade of blue I see
When you're away from me
Thinking about you Oh Oh
Thinking about you
Every shade of blue I cry
'Til the colours all run dry
When I'm without you Oh Oh
When I'm without you

Every shade of blue I see
When you're away from me
Thinking about you Oh Oh
Thinking about you
Every shade of blue I cry
'Til the colours all run dry
When I'm without you Oh Oh
When I'm without you

When I'm without you
