"Waterfall"

Visit "[Waterfall](#)" on MotoLyrics.com

I just took a bite
From your sweet mouth
Starburst bright
Falling to the ground

The grass is green
Beneath my feet

Can you feel

(chorus)
It's like a waterfall coming down
Your love it just shiners through me like the sun

I can feel your touch
On me skin tight
Slip and slide
With me through the night
Floating free

(chorus)

Your kisses fall like flowers over me

(chorus)
