You really got you really got  
You really got something  
I remember how I once said  
Don't let the guy go to your head  
I was always the cautious one  
Looking out for trouble  
But I have to say  
Since you came my way  
Everything's alright  
(Chorus)  
You really got something  
Somethin' so fine  
You really do move me  
Move me all night  
I remember my own advice  
Keep on moving and don't think twice  
My friends tell me  
I've changed my tone  
Guess its down to you  
'Cos I have to say  
Everything's O.K.  
Since you've been around  
(Chorus (x2))  
you really got you really got you really got something  
(repeat x2)  
(Repeat first verse)  
(Repeat second verse)  
(Chorus (x2) to end)
