Down

Looking back on when I was a child  
Not a care in the world  
All I've learned and all that I know now  
Sometimes we go through pain  
Please take us from the rain, yeah

How long must this world continue to be  
Seems like no one even cares, yeah  
Think about the children and what they need  
Help me find a way, yeah, yeah, to take the storm  
away, yeah

Somebody take the storm away  
Somebody take the storm away  
Somebody take the storm away  
Before it comes on down, yeah, yeah baby

Somebody take the storm away  
Somebody take the storm away  
Somebody take the storm away  
Before it comes on down, yeah, yeah baby

I know we've come too far  
But we must live in a world full of love  
I know, I know, I know we can  
I know we can take the storm away  
[Incomprehensible]

Somebody take the storm away  
Somebody take the storm away  
Somebody take the storm away  
Down

You know this world is in definite need for a change  
We must ask ourselves, do we want all of our kids  
Growing up into a world of hate, a world of prejudice  
A world of heartaches, a world of drugs and politics

I don't think so  
I think, everybody wants to see the same things happen

We must come together and live together in this world

Somebody take the storm away  
Somebody take the storm away  
Somebody take the storm away  
Down

Somebody take the storm away
