

Bobby Callender **"Little Star"**

Visit "[Little Star](#)" on MotoLyrics.com

There's a star up in the sky
Shining down on you and I
Make a wish, it might come true
You'd be surprised what
That little star can do

[CHORUS]

Make a wish upon a star
Make a wish with all your heart
Make a wish, it might come true
You'd be surprised what
That little star can do

Would you like to take a trip
Around the world in a rocket ship
Or be a famous singing star
And rock and roll as you
Play your guitar

[Repeat CHORUS]

Would you like to be a traveling man
And roam around from town to town
Or would you like to be a millionaire
And go through life without a care

[Repeat CHORUS]

Just make a wish upon a star
