Night has come  
The day is done  
We've been on the road so long  
Pictures of you  
Making me blue  
Feel this moment warm and true

When I look inside my mind  
I will never find  
Someone like you

[Chorus:]

Now I'm coming home for Christmas  
Will you hold me in your arms  
Knowing you will never let me down  
Coming home for Christmas  
Counting all the stars  
And one of them is shining just for us

Everyday  
While I'm away  
Hope our love is here to stay  
All that I do  
Is longing for you  
And I hope you feel it too

Now the snow is falling down  
See the lights of my hometown  
Show me the way

[Chorus]

When the nights are cold  
And I am feeling blue  
I just close my eyes  
And dream away to you

[Chorus] x 2

Coming home for Christmas.
