Oh sweet England how we love you,
The pride of English countryside.
Oh sweet England we'll be with you,
For you to fill us full of pride.

Never in our lifetime could we leave you,
Even when you have to go abroad.
We'll be out there looking to support you
And cheer each golden goal that's scored

Oh sweet England how we love you,
That pride that you can give to us.
Oh sweet England we'll be with you,
It's English football that we love.

One goal from you will start us singing,
To goals we really will applaud.
And when the balls not running for you,
That's when we really shout for more.

Oh sweet England how we love you,
The pride of English countryside.
Oh sweet England we'll be with you,
You know, you fill us full of pride.

One goal from you will start us singing,
To goals we really will applaud.
And when the balls not running for you,
That's when we really shout for more.

Oh sweet England how we love you,
The pride of English countryside.
Oh sweet England we'll be with you,

You know, you fill us full of pride.(come on England!)
You know, you fill us full of pride.(good old England!)
You know, you fill us full of pride.
You know, you fill us full of pride.
