Try my love, try my love
Try my love, try my love

Try my love again
Just one more time
Got to treat you right now, baby
I've got to make you mine

If you ever leave me
You will make me cry
I really
Heaven knows, I'll try

Your sweet loving
Is better than a kiss
And after you leave me, baby
Sweet kisses, I'll miss

Tell me you love me, baby
I'll always be your man
I'll always take care of you, darling
The best that I can

Try my love again
I've got to treat you right
I've got to make you mine
Everything will be all right, baby

Come on and try (try my love)
Try my love again, baby
(Try my love, try my love)
I need you by my side, girl
(Try my love, try my love)

I've got to, got to have you, baby
(Try my love, try my love) ah, ooh
(Try my love, try my love)
I've got to make you mine...
